- Doctor of Chiropractic
- Honours Bachelor of Science, Kinesiology
- RockTape Doc & RockTape Master Instructor
 - Fascial Movement Taping
 - Performance Movement Taping
 - Power Taping
- CrossFit enthusiast
- Student of human movement

Dr. Dunnill completed an honours bachelor of science in kinesiology at the University of Waterloo before attending the Canadian Memorial Chiropractic College and graduating as a doctor of chiropractic in 2009.

In 2012, he launched 3D Health Solutions, specializing in on-site therapeutic solutions for neuromusculoskeletal injuries. Therapeutic services include joint manipulation, soft tissue therapy, rehabilitative & mobility exercises, orthotic & compression therapy, elastic therapeutic taping, and more.

In the same year, Dr. Dunnill was introduced to CrossFit. Already having a passion for movement, motor control and mobility, he recognized the need for therapeutic services to address these variables in CrossFit athletes. Utilizing his experience working with various athletic populations, he developed a consultant chiropractic model of care, providing on-site care for CrossFit athletes in the boxes where they trained.

3D Health Solutions currently provides consultant therapeutic services at CrossFit Connection in Burlington, and CrossFit Streets in Mississauga. 3D Health Solutions has also been pleased to provide therapeutic services for the athletes at events including the Canada East Regionals, Reebok UG Series, Element Ontario Open, CompWOD Tag Team, Girls Gone Rx, as well as numerous local events. In July 2015, Dr. Dunnill volunteered his services as medical practitioner for the 2015 Toronto Pan Am Games.

Dr. Dunnill lives in Milton with his wife, their 4 year old son, and miniature schnauzer. He is a two-time CrossFit Games Open participant, an outdoor enthusiast, and an avid student of movement, motor control & mobility.
